Cambridge Diabetes Education Programme

Supporting Clinical Practice Pharmacists, GP HCAs and GP Practice Nurses Deliver the Diabetes Care Processes

The NICE recommends that people living with diabetes have the following 9 annual checks:

1. Body mass index (BMI)
2. **Urinary albumin test**
3. Blood pressure
4. **Serum creatinine test**
5. Smoking status
6. **Cholesterol levels**
7. HbA1c measurement
8. **Foot check**
9. Eye check (retinopathy screening)*

With the right training and clinical supervision, unregistered healthcare staff can be supported to efficiently deliver 8 of these diabetes care processes.

*Retinal screening needs to be done by appropriately trained staff with suitable retinal photography equipment.

HOW TO REGISTER:

1. Go to CDEP's website at www.cdep.org.uk or scan your phone here:
2. Click on the link in the top right corner: SIGN IN/REGISTER
3. Under SIGN INTO YOUR ACCOUNT, go to the CREATE A CDEP ACCOUNT box, enter your EMAIL address and click CREATE ACCOUNT
4. Complete the rest of the registration form and you're all set!

For FREE access, enter the REGISTRATION KEY CODE: **DIABETESCAREHWE**

If you forget to enter this key code, you will not be able to access CDEP for free.

Cambridge Diabetes Education Programme

CDEP is here to help!

- CDEP provides **bite-sized**, **competency-based** online training. You can dip in and out whenever you have a spare moment!
- Training is accessed from a **smartphone**, **laptop** or **desktop** - at any convenient time.
- Each topic completed, generates its own **certificate** and **reflection form**.
- Earn **extra CDEP rewards** - the more training you complete, the more rewards you get!
- CDEP **reporting dashboard** provides real-time monitoring for diabetes training.
- Over 100,000 topics have been completed to date, and the rate is increasing at a 1000+ a month, proving just how **popular and convenient** the platform is!
- CDEP's education is **award winning!** The training feedback is overwhelmingly positive, with many expressing an increase in **knowledge**, **confidence** and **guideline familiarity**. This confirms that our training is on target and adding value.

What CDEP level should I register at?

CORE
The minimum level for staff who have any contact with people living with diabetes. Ideal for HCAs, pharmacists, GP nurses, etc.
