Spirometry Training Options

As a top up when purchasing our full spirometry course.

Existing Product: Spirometry Course with ARTP assessment

Appropriate for: Health care professionals who perform and/or interpret spirometry and need to undertake all the learning required to prepare for the ARTP assessment. The course covers the requirements for all ARTP certificates: -performing only (foundation certificate), performing and interpretation (full certificate) and interpretation.

Delivery: Consists of a series of videos and eLearning to enable learners to build the knowledge and skills that are needed to effectively carry out a spirometry assessment as well as to interpret the results needed to support people with respiratory conditions. The course is supported by monthly virtual live sessions providing the opportunity to interact with the course tutor and ask questions.

Assessments: Delivered directly via the ARTP and not through Education for Health. Learners will be provided support if they have registered with the ARTP during the course of their learning with Education for Health. This must be before the end of the six months with Education for Health.

Cost: £580pp

Access to the eLearning and tutorials: 6 months. Please note the learner can work through the chapters as quickly or as slowly as they would like.

Additional support for commissioned cohorts

We can provide 3 options to commissioners for additional learner support:
- closed group of virtual monthly support sessions x 6 = £700
- 1 day face to face workshop = £1,500
- 2 day face to face workshop = £2,500

Options:

Product 1: Existing Product (Spirometry Course with ARTP assessment) with additional Spirometry virtual Support Sessions - closed groups
Cost: up to 20 learners per cohort = £11,600 Plus £700 for 6 x 1 hour live virtual webinars
We can provide 6 x 1 hour live virtual webinars every month, run as a closed group just for your staff throughout their 6-month course. In these

sessions your staff can ask questions regarding their eLearning and their assessments and discuss best practice together with their colleagues.

Product 2: Existing Product (Spirometry Course with ARTP assessment) with additional Spirometry one-day F2F Training Workshop - closed group
Cost: up to 20 learners per cohort = £11,600 Plus £1,500 for one-day face to face workshop
A one-day face to face training workshop, run as a closed group just for your staff, to help support learners understand how to perform and interpret QA spirometry. Sessions will be focused on performing and interpreting spirometry.

Delivered approximately 3 months into the course comprising of two sessions:

- Morning Session will be focused on performing QA spirometry.
- Afternoon Session will be focused on interpreting spirometry.

Product 3: Existing Product (Spirometry Course with ARTP assessment) with additional Spirometry two-day Training Workshop - closed group
Cost: up to 20 learners per cohort = £11,600 Plus £2,500 for two-day face to face workshop
A two-day face to face training workshop, run as a closed group just for your staff, to help support learners understand how to perform and interpret QA spirometry.
One day will be provided at the start of the course and one will be provided at month 3.

Day one: Provide an overview of the learning journey and performing spirometry.
Day two: Provide an overview of interpretation of spirometry.
