Spirometry Products

Spirometry Update Package with Ask Spiro £60pp.

Already qualified in spirometry:
This is designed for people who need to complete their annual ARTP certification, test your knowledge and ask unlimited questions.
six months access to the online course and access to our Ask Spiro service.

- The bite sized course is made up of a pre-recorded lecture along with a knowledge check assessment.
- The Ask Spiro Service provides you with access to an online Q&A service which is accessible Monday to Friday each week (except Bank Holidays)

As part of your six-month access to the package, you can submit unlimited questions to our spirometry experts as often as you need. This ensures that you have:

- **Expert support** - our experts are clinically active and up to date with national guidelines.
- **Quick response time** - our experts will respond to your question within two working days.
- **Added value** of direct access to spirometry experts working in the field

Please note that individual patient cases will not be discussed, nor will diagnosis be commented on.

Course benefits:

- **Flexible learning** – You can complete your online pre-recorded lecture and the spirometry knowledge check at a pace that is suitable for you. As access is for six months, you can listen to the lecture several times before completing the questionnaire.
- **Bite-size** - this short course is a quick and efficient way to update your knowledge.

Please note: the cost for the ARTP renewal certificate is not included in this course price. To apply to the national register, you will need to contact ARTP directly. **https://www.artp.org.uk/**

Spirometry Refresher with access to ARTP assessment course £365pp.

This course has been designed for **learners who have spirometry experience but are not currently on the ARTP Register.** These learners need to refresh their knowledge around spirometry and complete their ARTP accreditation.
The Spirometry Refresher course consists of:

- A pre-recorded lecture which will enable you to learn at a pace and time that is suitable for you;
- A live Q&A webinar every month which will provide you with opportunity to ask questions to a clinical expert as well as share practice with your peers;
- Access to the ARTP assessment process. Our team will support you to prepare for the assessment and assist you with the process. The cost of accreditation is included in the course.

Spirometry Interactive Blended Online Learning Package including ARTP assessment access course £580pp.

This course is designed for **healthcare professionals who are responsible for performing, recording and interpreting spirometry in adults, or a combination of these.**
Participants can join this course at any time, there are no set start dates. Participants have six months to complete their studying; enabling them to learn at the pace that best suits them.
Our learning materials combine interviews with respiratory experts, podcasts and eLearning chapters. The content is created by a team of expert clinicians and aligns with ARTP standards. Each month, a live interactive tutorial is held to ensure learners have opportunities to check their understanding with their clinical tutor, ask questions and share best practice with other learners. The live monthly tutorial is divided into three groups, to ensure content and discussions are pitched at the right level for each learner's needs (beginner to intermediate; intermediate to advanced; and HCAs).
The course is specifically designed to give learners the knowledge and know-how to demonstrate competence in spirometry; enabling learners to assess their patients with both confidence and competence.

Purchasing this version of our course includes access to the ARTP assessment process. Our team will support you to prepare for the assessment and assist you with the process.
