Spirometry Support Products

We can help with various levels of support: Our **local peer-to-peer support programme** can provide you with bespoke support such as monthly online tutorials where staff can join and ask questions to one of our clinical experts.

The programme aims to provide you with an opportunity to work with a spirometry expert to answer your ongoing day to day spirometry clinical and service delivery questions and connect you with your peers to ensure that you are able to share best practice through virtually tutorials.

Who is the programme available to:
This local programme is designed for those individuals that are currently undertaking their spirometry training with Education for Health and are in the process of embarking on their ARTP certification process. This programme aims to support you to build and create local network of spirometry healthcare professionals.

By undertaking this learning, you will have access to: Practical hints and tips around spirometry service delivery, share best practice with your peers, Personalised support to help you complete your spirometry learning.

Option A:
One session a month for 3 months cost =£750 Twice a month for 3 months cost = £1,500

Option B:
One session a month for 6 months cost = £1,250 Two sessions a month for 6 months cost = £2,750

These costs are based on the session being managed and organised locally with EfH providing the clinical expert. The programme will be for people who have qualified or are near completion.

Administration support can be provided at any extra cost, expression of interest forms, invites, links, Teams meeting, flyers.

We can help you deliver a **champion programme** where we can train up a number of staff members as spirometry champions who will then be able to assist and mentor staff members in their areas.

Costs:

Delivery comprises of 3 x tailored tutorials of one hour over a 6-week period.

£1,500 These costs are based on the session being managed and organised locally to align with your existing programmes. EfH will be responsible for the development and delivery by one of our clinical expert tutors.

The programme is for people who have qualified or are near completion of their spirometry/ARTP programme and will be provided online.

Administration support can be provided at any extra cost, expression of interest forms, Invites, links, Teams meetings, flyers.
