Cambridge Diabetes Education Programme

Topic : SAFE USE OF INSULIN IN THE COMMUNITY

AIM:

This topic is designed to **reduce the risk of insulin error** and is **essential training** for all **health** and **social care staff** supporting people living with **insulin-treated diabetes** in an **outpatient, community** or **care setting.** *Depending on selected CDEP levels, it focuses on*:

- **Function, use** and **side effects** of insulin therapy
- **Right timing of insulin doses** in common scenarios
- How to **competently inject insulin**, if trained to do so
- **Common insulin errors** and how they can be **prevented**
- *Plus much more!*

DURATION:

This topic will take roughly **30-75 minutes to complete**.

The completed topic will generate its own certificate, reflection form for *revalidation* and *appraisals*... as well as CDEP rewards!

CDEP is **award winning!** This confirms that our training is on target and worthwhile. Sign into CDEP and see for yourself!

QiC Diabetes Quality in Care Programme 2021 — QiC WINNER

PATIENT SAFETY AWARDS 2020 — WINNERS — Patient Safety Education and Training Award

Sign into **CDEP** and start your **COMMUNITY Insulin Safety Training**!
